

A photograph of a gymnasium with blue interlocking rubber tiles on the floor. In the background, there are several exercise machines, including treadmills and stationary bikes. A person is visible in the distance. The foreground shows a person sitting on a blue exercise machine, using it. The overall scene is brightly lit and clean.

INTERLOCKING RUBBER TILES

HIGHJOLT

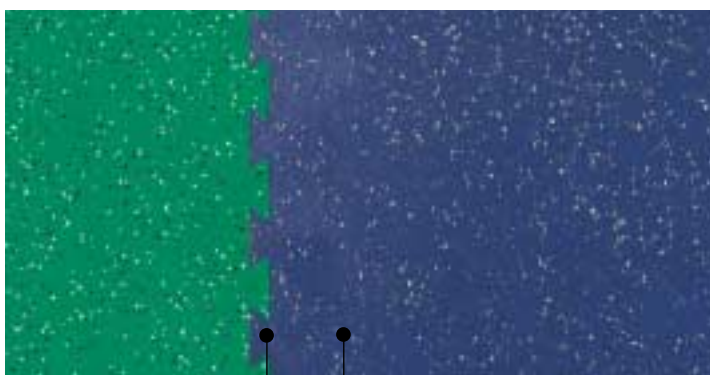

INTERLOCKING RUBBER TILES

APPLICATIONS

- CARDIO AREAS
- LOCKER ROOMS
- SKATE AND CLEAT AREAS
- MULTIPURPOSE AREAS
- REHABILITATION CENTERS
- DAYCARES

BENEFITS

- **Quick and easy installation**
No adhesives required
- **Low maintenance**
No sealers or wax needed
- **Virtually odorless**
Made with virgin rubber
- **Class 1 fire code**
Removes safety concerns
- **Slip resistant**
ADA compliance wet or dry
- **Design options**
8 vibrant design orientated colors

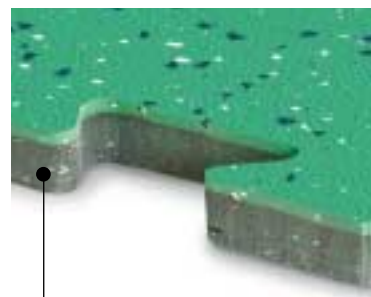

TIGHT FIT

Water jet cut
Tiles are cut by means of a computer-assisted precision cutting system that produces virtually seamless joints

HIGH DURABILITY WEAR LAYER

- **Low life-cycle costs**
Will not wear like recycled tire based products
- **Non-porous**
High stain resistance and easy to maintain
Sweat will not penetrate the surface

STABILITY LAYER

- **High static load limit**
Dual durometer system makes it suitable for heavy cardio and other equipment
- **Eco-friendly**
Made with post-consumer recycled content
100% recyclable
- **Comfort and anti-fatigue**
Superior controlled elasticity provides unsurpassed comfort and anti-fatigue properties

TEXTURE: Sealskin THICKNESS: 5/16" (8 mm) TILE SIZE: 2' x 2' (.61 m x .61 m) WEIGHT: 3.75 lbs./sq. ft. (18,8 kg/m²)

Custom colors available on order. Minimum quantity required.
